

Funky Animals & Spring Riders.

Play springs to life when you add sound.

Old favorites get a harmonious twist with our NEW Spring Riders and Funky Animals. Each innovative, spring-based design features matching music and sound effects that come to life when a player hops on. Cars beep. Cows moo. And trains choo-choo.

Ergonomically designed with youngsters in mind, Spring Riders and Funky Animals are also built to last. The completely secure electronics can run up to a year on just four standard D-cell batteries.

Funky Animals

Cow

Ladybug

Bumble Bee

Horse

- Each animal makes the appropriate sound and plays music when a child interacts and plays on it.
- Overall height, handholds and footholds are lower to specifically accommodate young children, age 2-5 years old. Even the animal's head is lower, so it's a more ergonomic fit.

- Designed for one child at a time. And the c-spring coil springs her forward for a thrilling but safe ride.
- Available with and without sound.
- Colors are as shown.

Funky Animals & Spring Riders (continued)

Spring Riders

- Our new, electronic version of the classic Spring Riders will have children's imaginations soaring!
- Available in your choice of five designs: boat, car, airplane, train and truck.
- Each rider makes the appropriate noises and music when a child interacts and plays on it. For example, the car will beep and its engine will rev up. Each rider also has its own theme music.
- Overall height and footholds are lower to specifically accommodate young children, age 2-5 years old.
- Designed for up to two small children at one time. And the standard coil springs them back for an exhilarating but safe journey.
- Available with and without sound.
- Colors are as shown.
