

For a true-to-life
rock-climbing adventure,
kids ages 5-12 will flock to our
new RockBlocks!

From the first ascent to the climb down, they'll have gripping fun as they put problem-solving and physical fitness skills into action. A variety of pieces (listed below) make each RockBlocks climbing experience unique.

Handholds: (A)

- Lip on handholds are small enough for pint-size fingers but large enough for sneakers
- Plastic around handholds are indented for smaller hands; textured handholds for a non-slip grip
- Handholds are completely bolted-through for greater durability and safety

Large Openings: (B)

- Provides greater supervision opportunities for adults
- Allows for inspired play like climbing through a cave or crawling under a waterfall

Connector Bars: (C)

- Pre-drilled for easy installation & cost savings
- Unlimited layout customization options

See pages 2-3 for information on our NEW & Exclusive RockBlocks components, including Slides, Climbers, 'Sunroof' Observation Deck and End Walls.

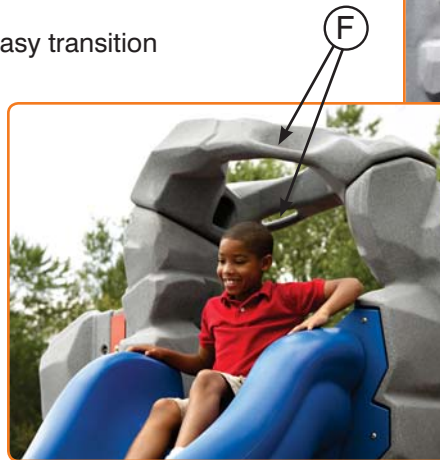

RockBlocks® Components

ZigZag Slide

- Designed to be a 'waterfall' with molded in ridges (waves) (D) throughout the slide
- Smooth and rounded edges (E) on the slide allow children to control their speed
- Handles (F) at the top provides an easy transition onto the slide

new & exclusive!

See page 3 for information on the 'sunroof' observation deck.

Hoops & Diagonal Climbers

- Creates a new and unique way to access RockBlocks
- Handles at the top allow for easy transition from climber-to-deck

Hoops Climber

Diagonal Climber

RockBlocks® Components

‘Sunroof’ Observation Deck

- Sunroof (opening) at the top safely provides children the chance to develop their imaginations and be ‘King of the Mountain’
- Deck provides a landing for a ‘cave-like’ experience
- Eco-Armor® coated deck is 100% PVC-free

new & exclusive!

End Walls

- Integrated ledges for climbing and perching
- Larger base adds greater stability
- Provides children with a fun and continuous climbing experience, both vertical ascent and horizontal traversing
- Perfect to use as a transition from RockBlocks to your traditional playsystem
