

We've got it *covered...*  
literally.

**XGRASS**

# THE X FACTORS

We know that purchasing surfacing products can be a challenging task. Trying to decide which system is best for your site isn't always easy. XGrass makes it simple. We will guide you through every step of the process, making sure our products meet all of your needs.

**XFACTOR ONE** **Family Owned** 29 years with the same family ownership gives you peace of mind knowing you have a stable and honest company. Nothing beats old-fashioned family values and we have three generations worth.

**XFACTOR TWO** **Knowledgeable** It is our priority to know more about the turf and safety surfacing industry than any other company. From manufacturing to installation – we do it, we know it, we live it.

**XFACTOR THREE** **Customers Come First** We focus on our customer needs and deliver custom solutions...every time.

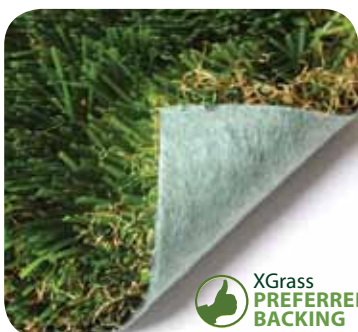

**XFACTOR FOUR** **Made in the USA** Our synthetic turf is manufactured with American materials at family-owned facilities in Dalton, Georgia. We pride ourselves in providing American jobs and giving back to our country's economy.

**XFACTOR FIVE** **Durable** Tough products backed with an industry leading 10-year warranty.

**XFACTOR SIX** **Innovative** We only use turf blades and components that are engineered with the latest technologies to meet the superior quality standards we set forth.

**XFACTOR SEVEN** **Exclusive** Products as unique as our customers. The only turf with DuraFlo. Our revolutionary backing is 100% recyclable and more than twice as permeable as traditional urethane products.

**XFACTOR EIGHT** **All About the Quality** Quality Product, Quality Installation, Quality Customer Service...delivering you a QUALITY Experience.

Every XGrass product is backed by the best.

## DuraFlo Backing

- All polyolefin backing system
- 100% recyclable
- *Permeable:* More than twice as permeable as traditional urethane
- Drains at 155 gallons per minute per square yard

## Urethane Backing

- Polyurethane backing system
- Not recyclable
- Hole punched for drainage
- Drains at 60 gallons per minute per square yard

**XGrass Lawn** provides the “fresh cut” appearance of natural grass...without all the upkeep. Even in the driest conditions, XGrass Lawn is the solution for homeowners who are seeking a beautiful, realistic and low maintenance lawn.

### Benefits

- Requires no water
- Requires no chemicals, fertilizer or insecticides
- Reduces allergy symptoms
- ADA compliant
- Prevents injuries associated with rocks and ground debris
- Safe for pets
- Available in a variety of styles to match the indigenous grasses of your region

### Commercial Applications

The same qualities that make XGrass Lawn ideal for residential use also apply to commercial applications. From greenways to medians, parks and developments, municipalities throughout the country are discovering the economical and environmental benefits of artificial grass.

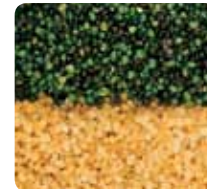

**XGrass Golf** offers a variety of golf surfaces; including indoor and outdoor putting green solutions for short game practice, tee areas, and portable hitting mats.

### Benefits

- 15 year life expectancy with proper care
- Reliable in all climates
- Minimal maintenance required
- ADA compliant
- Allows you to practice at home
- Improves your short game
- Requires no water, chemicals or fertilizer

### Ideal for

- Driving ranges
- Backyard practice areas
- Putting and Par 3 Courses
- Neighborhoods
- Apartment/condominium developments
- Retirement communities

**XGrass Infill**  
Our specific blend of rounded quartz sand is used for every XGrass putting green installation. This ensures a consistent ball roll and long-term receptiveness.

**XGrass Pet** is a synthetic grass solution for outdoor play areas that not only gives your pet a great outdoor experience but makes life for pet owners a little easier too.

### Benefits

- Mud and puddle free play area
- Surface free of pesticides and chemical treatments
- Eliminates maintenance costs such as mowing, sodding or weeding
- Conserves water and eliminates watering expense
- Anti-Microbial surface
- Envirofill eliminates need for rubber fill
- Recyclable
- Green all year long

### Ideal for

- Dog parks
- Boarding houses
- Kennels
- Breeders
- Veterinary clinics
- Pet care facilities

**XGrass Play** is certified for its safety by the International Play Equipment Manufacturers Association (IPEMA). It's more than just an attractive addition to your play area; it's what children deserve in playground safety.

### Benefits

- Completely anti-microbial
- Meets ASTM F1292 requirements for up to a 12' fall height
- Reduces allergic reactions caused by grass
- Dries quickly, allowing children to play immediately following a rain
- Consistent HIC safety ratings
- Eliminates constant maintenance of loose fill surfacing
- Environmentally friendly – Earn up to 6 LEED points

#### SofPad

The SofPad shock and drainage pad provides shock absorption and impact protection from falls, the most common source of serious injuries related to playground activities.

#### Envirofill

Envirofill is an anti-microbial, non-toxic, non-flammable infill product that remains up to 20% cooler than other infill materials. The rounded, uniform, coated infill resists compaction, helping to create a long-lasting, comfortable playing surface.

**XGrass Sport** allows you to create durable, safe and beautiful areas for America's favorite pastime sports. Make it custom with inlaid logos or permanent lines. Our leading synthetic turf system allows teams and individuals to practice or play in all kinds of conditions.

### Benefits

- Safe
- Durable
- Professional appearance
- Minimal maintenance required
- Meets G-Max ratings

### Ideal for

- Golf mats
- Batting cages or mats
- Golf simulators
- Bocce & croquet
- Tennis courts

**XGrass Performx** speaks for itself with safety, performance and durability features that are second to none. We have the ability to design, test and manufacture professional athletic field systems to meet the specific needs of facility managers, athletic directors, coaches and athletes. Get a turn-key solution straight from the manufacturer of the highest performing turf in the industry.

### Benefits

- Safe
- Durable
- Professional appearance
- Minimal maintenance required
- Requires no water
- Requires no chemicals or fertilizers
- Meets G-Max ratings

### Ideal for

- Baseball infields and outfields
- Soccer fields
- Football
- Lacrosse
- Multi-sport fields
- Field hockey
- Rugby
- Indoor training facilities

### Custom Applications

XGrass Performx allows you to create sports fields of any shape or size - and for any sport. From custom inlaid logos to permanent lines, our leading synthetic turf system allows teams and individuals to use the field in all kinds of conditions, without damaging the playing field.
